

STUDENT ACCIDENT INSURANCE INSTRUCTIONS

Student Accident Insurance brochures are available online to parents and school officials. We have provided flyers for you to distribute to the parents directing them to our website:

www.BollingerSchools.com

From this site parents will have the option to purchase student accident insurance for their child using a credit card or if they prefer, they may print an application and mail it to Bollinger directly along with a check or money order.

Not only is this option an environmentally better choice, but this will also eliminate the need for your teachers to collect the application forms from the students and your office staff will no longer have to mail them back to our office. When purchasing online, the parent will receive an immediate confirmation for their records and coverage becomes effective at midnight the following day. If the parent chooses, they may print a paper copy of the brochure for their records.

Claim forms are also available on the website.

Your district has access to the application form and claim forms on the website www.BollingerSchools.com. Claim forms and applications may be printed as needed for parents that do not have access to a computer and printer.

We hope you will join us in our effort to make the responsible choice and replace the distribution of paper application forms with the ease and efficiency of electronic enrollment.

We will be happy to provide you with your district's *unique* Bollinger Schools web address if you would like to post it on your district's website.

FOR ANY CLAIMS QUESTIONS, PLEASE CALL BOLLINGER INC at 1-866-267-0092.

For all other questions regarding coverage please visit the website and click the "Contact Us" link or call 1-800-526-1379.
